To Whom It May Concern:

Re: All About Painting

After due diligence and a stringent bidding process, *All About Painting* was recently awarded the contract for a major exterior painting project at *The Palms Point Condominium*.

All About Painting performed all facets of the project, including pressure cleaning the roofs and structures of 21 two and three story buildings, sealing and waterproofing the buildings and windows, painting of the exterior of all the buildings, Clubhouse, Compactor enclosure, front entrance structures and all the stairs in the breezeways.

The project was completed in a timely and extremely professional manner. We would be most pleased to recommend *All About Painting* to anyone considering this scope of project.

Sincerely,

Doron Tal, Vice President
For the Board of Directors
The Palms Point Condominium Association, Inc.
