To Whom It May Concern:

Recently we completed the installation of knockdown treatment to fourteen (14) floors in our building at Sea Ranch Lakes North. We also installed chair rails and painted all of the walls, ceilings and doors.

We are pleased to state that "All About Painting" was awarded the contract. They completed the entire job in about six weeks, which was our goal and time frame. Throughout the job, the supervision, workmanship and attention to detail was exceptional.

They are an established firm and were able to give us the required insurance, license, business tax receipt and certificate of competency from the state of Florida.

It is our pleasure to recommend All About Painting for a job well done.

Yours truly,

Matthew Mauriello, Director on Board
Chairman of Building and Grounds
Sea Ranch Lakes North, Inc.
